Sickness in the Country.

Reports from the country indicate that there is at this time more than the usual amount of sickness prevailing. Most of these troubles seem to arise from an impure condition of the blood, caused by an excessive secretion of bile. This causes secretion of a bilious character, and we regret to say in some places it has proved very fatal. We, therefore, offer this gratuitous advice to those not yet afflicted: Keep your liver in a healthy condition, and your blood rich and pure. Good blood means good health, whilst bad blood bad health. Hart's Blood and Liver Pills are entirely vegetable, and are just the pills needed at this season of the year.
